

A Level Chemistry Reading List

[Physics and maths tutor](#) – Not just for physics and maths! Has some great notes and past paper questions for A-Level Chemistry. There are 12 assessed practical activities across the two-year course and it provides great information on those.

[Doc Brown](#) – It can be quite difficult to navigate, and looks like it is from 1995, but has great notes for Chemistry at all levels.

[Chemguide](#) – Another website with excellent A-level Chemistry notes and questions.

[Royal Society of Chemistry](#) – Stay up-to-date on [current events in Chemistry](#) as well as look at [potential careers](#).

[The Periodic Table of Videos](#)

[How big is a mole? TEDEd](#)
