

Architecture

Year 12

Bridging Project

Welcome to A Level Photography!

Over the holidays, I would like you to take photographs based on the theme of 'architecture'.

You can take photographs inside and outside of the buildings.

Be creative.

Think carefully about camera angles and composition. Look at what the image looks like on your screen, before you take the photograph.

I've included some research slides to help with inspiration.

Any questions email:

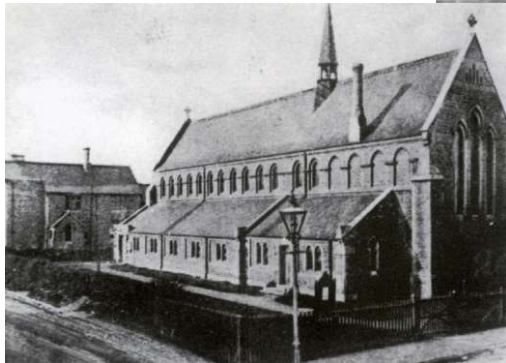

ndenham:@rodillianacademy.co.uk

Aim for at least 20 'good' photographs – we will be using them in lessons.

Symmetry / reflection

Think carefully about using leading lines in your work. They are important!
